Are You at Risk?

Do you have shortness of breath?

On-site Pulmonary Function Test!
Advanced appointments are required.
See staff for details or to schedule your test.
Pulmonary Function Test costs just $ 25!

Some doctors recommend having a spirometry test before age 25 to get your baseline numbers. If you area a smoker, are occupationally exposed to irritants, or have symptoms of cough, wheeze, or shortness of breath, you should have a spirometry test every year.

Sign-up Today To Have a Baseline Spirometry Test!
